Non-Medical Home Care Agencies

These agencies provide services such as companionship, meal preparation, light housekeeping, personal care (dressing, bathing, toileting) and transportation on an hourly basis. These services are not covered by insurance and are private pay. There are two types of agencies; full service and contract. Full service generally employs their own caregivers and handles all scheduling and supervision of staff. Contract agencies usually provide a list of caregivers for you to interview and hire at your discretion.

NOTES

Alabama’s local Area Agencies on Aging (AAAs) and other community partners have expanded their services and are now providing information, assistance and services through their Aging and Disability Resource Centers (ADRC).

Top of Alabama Regional Council of Government (TARCOG) is your area’s first place to go with your aging and disability questions! An ADRC Specialist can provide you with information, benefits counseling, options counseling, and crisis support.

- ◆ Our local community’s one-stop access point for information and services to help people, adults with disabilities and caregivers find the resources they need regardless of their income.
- ◆ A visible and trusted place where you can get unbiased information, counseling and access to a wide variety of services and programs.
- ◆ A single point-of-entry to public long-term services and supports to make informed decisions and proved streamlined access to those services.

An ADRC Specialist can answer questions like:

How can I get services to stay home instead of going to a Nursing Home if I am on Medicaid?

Call to see if you qualify for Medicaid Waiver services to safely keep you in your own home.

Can I get help with Prescriptions?

Is respite care available for caregivers?

Are there programs to help me re-enter the work force?

How do I get Medicare plans or Medicaid?

Can I get help with meals? SNAP?

Here is where I report Medicare Fraud!

The ADRC in your area can help you with many questions, just call —
